

## Tactical-Trading Home

Tactical-Trading was established in 2005 after realizing the demand in the Middle East region for quality tactical gear, outdoor products, & equipment from world renowned manufacturers. Step-by-step the company has gradually grown and is constantly developing professional relationships with reputable retailers, general traders & government organizations throughout the Middle Eastern continent.

Tactical-Trading has a long term vision of continually expanding its product range & services to become a one stop tactical gear, outdoor products, equipment and services supplier.

As stated on other pages of our website we will only deal with reputable companies/agencies/traders and do not offer direct tactical sales to the general public.

We are constantly looking to set up quality dealers for our distributed products. Don't hesitate to contact us if you think our products & services are of interest.

### NEWS FLASH
